### Who we are:

Falcon Integrated Services is a privately owned company. The Board consists of 15 employees. Some of our consultants are listed in this profile. Falcon Integrated Services has unmatched expertise in Training and Business Management Consultancy.

We are accredited by most of the International Training organizations.

Falcon Integrated Services works with top management in organizations in tackling their most difficult and unique organizational development challenges.

Falcon Integrated Services Ventures consultants then design and structure appropriate consulting or project management training addressing those specific needs at each level of the organization.

This can be as basic as introducing project management tools and techniques to new managers or as complex as assisting a company's transition into a new way of doing things (change management).

Accreditation is a process in which certification of competency, authority, or credibility is presented.

The accreditation process ensures that our certification practices are acceptable and legal, typically meaning that Falcon Integrated Services Training is competent to test and certify.

All instructors and assessors are registered and accredited for the relevant unit standards as set out by training organizations.

We are situated in Sanliurfa, Turkey. We offer on - site training at very competitive rates and hire training venues for all our offsite training.

Listed herein are some of the business management areas in which we have specialized to help organizations excel in the marketplace.

### Mission:

We exist to Provide Transformative Training and Business Management Consultancy Solutions to our clients.

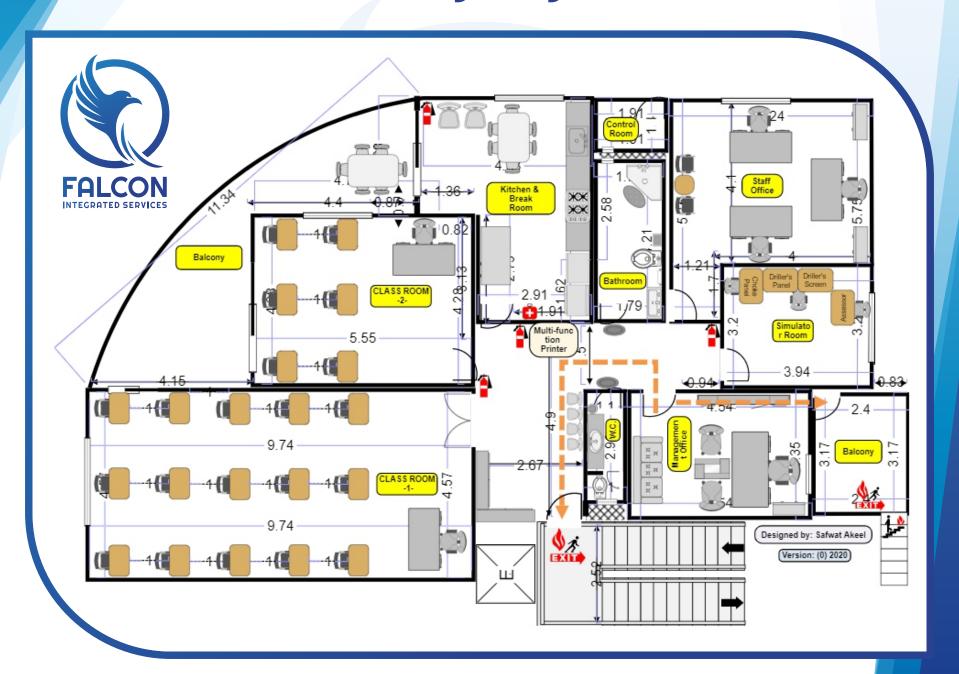

### Vision:

To be one of the leading service providers within Middle East & Europe and beyond by providing the best Training and Consultancy experience using the most valuable, transformative, relevant, practical and modern approaches.

### Core Values:

Integrity Effectiveness Excellence in service,
Quality Service, Accountability, Professionalism,
Innovation & continuous development,
Reliability and Sustainable development
